

# THE PENNY MEN

## SPECIAL EVENT/PROMOTIONAL OPPORTUNITIES

**T**he Penny Men are the leading manufacturer of the popular Souvenir Penny Machines. These machines take the customer's penny and turn it into a commemorative coin of that location. Each year millions of people use our machines and receive a memento that will last for generations. Our machines are found in over 1,000 of the highest volume destination locations around the country. Now you can

have us bring the excitement and popularity of elongated coins to your Special Events, Parties and Trade Shows!

We will bring an Attended Machine (pictured above) to your Event or Trade Show and roll out complimentary custom coins for the attendees/guests and put them on a key-chain/neck cord. Or we can make you a custom designed engraving and roll out the coins and ship them to you.

E-mail or call John Cweiber (also pictured above) to discuss a package that is right for you!
